QUALITY, HEALTH, SAFETY, ENVIRONMENTAL SUPERVISOR

PROFFESIONAL SUMMARY

HSE PROFESSIONAL WITH YEARS OF INTENSIVE SAFETY SUPERVISION IN CONSTRUCTION, OIL & GAS, DRILLING AND HYDRAULIC WORKOVER OPERATIONS, POWER & LPG PLANT, AND MARINE SECTOR.

Managing Health, Safety, and Environmental regulations on land, swamp, and offshore locations. I have honed my skills having worked with both Multinational crew and National companies. I have developed and implemented multiple processes, procedures, and initiatives geared toward promoting a culture of safety. I have supervised and managed several health, safety, and environmental training, plans, and programs, as well as participated in over 100 QMS audits and inspections, ranging from Occupational Hygiene inspections, Environmental Compliance inspections, Equipment inspections, and Quality Inspections to mention a few. I have handled several Interfaces flawlessly with clients, communities, and government agencies related to Quality, Health, Safety, and Environmental issues and I am well vast in emergency and crisis management.

I have successfully implemented, supervised, and enforced health, safety, and environmental procedures, policies, plans, and programs to meet Company's strategic objectives in drilling, work-over, exploration, construction, and marine operations with no accident and fatality records. My Success as a prolific HSE Manager and Supervisor supersedes me.

Nov. 2019 – Dec. 2021	PETROLEUM TRAINING INSTITUTE Higher National Diploma – (Distinction) Environmental Technology
Nov. 2015 – Dec. 2018	PETROLEUM TRAINING INSTITUTE National Diploma – (Distinction) Industrial Safety and Environmental Technology

PROFESSIONAL CERTIFICATIONS

- ISO 14001 – Environmental Management Systems Lead Auditor.
- Process Technical Engineering
- Process Safety Engineering
- International Well Control Forum (IWCF) Level 1
- UK Level 2 Food Safety (AOSH)
- General Safety Awareness (The International Association for Chemical Safety)
- Slip, Trip and Fall Awareness (The International Association for Chemical Safety)
- COSHH Hazard Communication Awareness (The International Association for Chemical Safety)

ACHIEVEMENTS AND AWARDS

- Managed over 100 personnel on Atamba Oilfield and drove safety compliance with zero accidents/fatalities recorded.
- Developed sustainable developmental processes on the Oilfield to ensure Environmental Compliance and monitoring.
- Process Safety Engineering – DM Sheffield Award for Overall Best HSE student
- Waste Recycling Training – Century Group HSE Summit award (2020)
- Certification in Job Hazard Analysis (HSE), 2019- Matrix Energy Limited Group
- Certification on Permit-to-Work (HSE), 2019- Matrix Energy Limited Group.
- Best Graduating Student, Petroleum Training Institute, Environmental Technology.
- Drove overall Safety compliance with a decreased rate of accidents by 25% at Matrix Energy Limited
- Drove and ensured PPE and other Safety compliance at Harbour Technologies Limited, resulting in zero fatalities throughout the project duration.
- Zero fatality and increased productivity ratio all through project execution at M&H Global Services Nigeria Limited.

KEY SKILL

- Project Management
- Risk Analysis and Assessment
- Interpersonal skills
- Excellent Written and Verbal Communication skills
- Public Speaking skills
- Accident and Incident Investigation
- Auditing skills.
- Research skills
- Hazard Management
- HSE Metrics/ Data Analysis
- Quality Integrity (Pre-check)
- HSE trainings

TECHNICAL SKILLS

- MS Word proficiency.
- Excel.
- PowerPoint
- Interpretation of marine bathymetric survey
- Utilization of Hydrographic Echo Sounder and GPS system as well as manual hydro-sounding operation.
- Basic Auto-CAD
